EDUCATION

Colorado School of Mines, Golden, CO Aug 2025
Master of Science in Computer Science GPA: 3.8

Colorado School of Mines, Golden, CO
Bachelor of Science in Computer Science Dec 2024
GPA: 3.7

EXPERIENCE

Software Engineer Intern, ICR Jun 2024 – Aug 2024
Frontend Developer – Louisville, CO

- Developed Angular UIs with TypeScript and reusable components to enhance performance and user experience.
- Implemented scalable architecture with Reactive Forms and RxJS to enable dynamic, real-time data handling.
- Engineered modular components and tables with SOLID principles for scalable, maintainable code.

Math Tutor, Red Rocks Community College Feb 2022 – May 2022
General Tutor – Lakewood, CO

- Devised adaptive learning strategies and iterative reviews to enhance comprehension and exam performance.
- Guided 20+ students weekly using analytical problem-solving and clear communication to improve understanding of complex math concepts.

Avionics Quality Assurance Representative, U.S Marine Corps Nov 2013 – May 2019
MV-22 Osprey Avionics Technician – San Diego, CA

- Trained a team of 32 Avionics Marines to ensure consistent aircraft operational readiness.
- Executed quality assurance inspections on electrical systems to uphold top safety and operational standards.
- Managed and secured Top-Secret cryptographic keys to ensure secure communication during military operations.

PROJECTS

Personal Portfolio Website – Independent project Oct 2025 – Present
• Built a React portfolio using Vite, integrating Framer Motion and EmailJS for animations and contact features.
• Improved performance and mobile responsiveness, deploying through Vercel to highlight projects.

Interactive Geospatial Data Viewer – ICR Internship May 2024 – Aug 2024
• Integrated a MapLibre component in an Angular app using RxJS to enable real-time geological data visualization and interactive layer control.

Clue Game – Colorado School of Mines Oct 2023 – Dec 2023
• Created a digital version of Clue in Java using object-oriented design and Agile Scrum, producing over 4,000 lines of code and 700 lines of JUnit tests.
• Implemented a modular architecture and testing pipeline to improve maintainability and gameplay dynamics.

TECHNICAL SKILLS & STRENGTHS

Languages: Python, Java, C, C++, JavaScript, TypeScript, HTML, CSS, Bash, Swift, OCaml

Frameworks & Tools: Angular, React, Node.js, RxJS, Tailwind CSS, Docker, JUnit, Git, GitHub

Databases & Cloud: SQL, PostgreSQL, MongoDB, AWS (Cloud Practitioner – in progress)

Software Development: Agile workflows, object-oriented design, scalable architecture, unit testing, and version control.

Professional: Clear communicator, analytical problem-solver, and collaborative team contributor.

AWARDS & LEADERSHIP

ICR C-MAPP Scholarship – Colorado School of Mines Sep 2023

Treasurer – Mines Veterans Alliance, Colorado School of Mines Aug 2023

President – Student Veteran Association, Red Rocks Community College Jan 2022

Meritorious Mast – 13th Marine Expeditionary Unit, West Pacific 18.2 Deployment Sep 2018
